

Attention Student Drivers and Parents

Checkpoints™ is an evidence-based program designed to reduce teen crashes and violations received by teen drivers.

All students who currently have a PERMIT or INTERMEDIATE RESTRICTED Graduated Driver License are encouraged to attend.

(This is not a required driver's program but an extra step to keep teen drivers safer on the roads).

At least one parent must attend with the teen driver and jointly complete a parent-teen driving agreement at the end of the program. The program will last about 1 hour and 15 min. **Food will be provided.**

New teen drivers are at greater risk for crashes when:

1. Driving during the first months without adult supervision
2. Driving at night
3. Driving with passengers
4. Driving on high speed roads
5. Driving in poor weather conditions
6. Driving on unfamiliar roads

Families who completed the Checkpoints™ program experienced:

1. An increase in the understanding of teen driving risks
2. Establishing guidelines to reduce risks beyond the Graduated Driver License Law
3. Written agreements to reduce teen driving risks
4. A reduction in risky teen driving behavior

Program will be presented on

Thursday, May 23, 2019 at 6:00pm

at North Hardin High School

Please contact Leslie Hall with the Youth Services Center to register for a session (270) 351-2862

Program will be presented by Diana Leathers, Maternal Child Health Coordinator with Lincoln Trail District Health Department. Questions? Contact Diana Leathers at (270)769-1601 ext.7068 or Leslie Hall at (270) 351-2862
