

# Message from the Principal

Dear Bruin Families,

My name is Brooke Custis, and I am honored to be the Principal of Creekside Elementary. Our mission at Creekside is to not only provide a safe environment, but to also ensure that every student reaches their full potential. I take that responsibility very seriously, and I am here to serve our Creekside family to ensure that we achieve our mission every day. As the first AgSTREAM school in Hardin County, we embed Agriculture in the 21st Century into everything we do. We believe that kids learn best by doing and offer hands-on opportunities for students to see how Agriculture is the foundation of civilization and rooted into their community and planet. At Creekside we strive to offer cutting edge technology and instructional practices with the traditional, community school feeling of the past. We truly believe that Creekside is the Best Side, and we are proud that you have chosen to make us your home.

Come and grow with us,  
Brooke Custis  
Principal
