

Policy 18.03c

(Continued clarification of internet and electronic mail use)

Some Further Explanation of

Certification Statement Card

All students will be using the internet and electronic mail during normal classroom activities with staff supervision. This is done as part of the technology curriculum. All internet accessible computers are equipped with special software that filters inappropriate materials as mandated by federal and state law.

If you check yes for internet and/or electronic mail on the attached card, you will be giving permission to allow your child to have access **independent of direct staff supervision**. (See HCS Code of Conduct, p. 34)

Cameras, videos, and audio equipment are used as part of the instructional process. The G.C. Burkhead morning news, student presentations, projects, classroom newspapers, etc. use this type of media. Checking yes to this allows your child's participation in these and other projects as outlined on p. 34 of the HCS Code of Conduct.

Every child must have a Certifications Statement Card checked yes or no in all 3 areas on file at Burkhead by August 14, 1998. If you have any further questions please contact your child's teacher.
